

1) meaningful moments

People can plug in their phone to the terminal and select some photos to show. Then they are asked go to a room with a lot of lanterns hanging from the ceiling. The photos appear on the faces of the lantern and lighten up the room.

2) help you slow down and look more deeply.

Remember when you are in bed or in a sofa and it is heavy rain or snow outside. This scene always makes me slowing down. the temperature from the "inside" and "outside" can be different, and you can feel the "snow" and "rain."

3) inspire you to move your body

When moving your arms, you will see the sheer starting to move. When you spin your body, the sheer also spins around your body.

4) how does your voice feel

Before entering the installation, there is a short hallway recording the sound of the passengers and using the data to generate the physical wave on the floor for people to pass. After passing the wave, they are told how the wave being generated.

5) Personal space

Everyone has a personal space, invading other's personal space will cause uncomfortable feelings. In this installation, on the floor, people will be surrounded by different colors in different diameters indicating the level of social distance. When one person intercounter with others, the colors will change.
